HAVE WE CRACKED IT AT LAST ?

Changes over the last twelve months have brought about a situation CAMRA has been seeking since its inception 20 years ago. Firstly, all but three of its pubs - if the 'nightclubs' are discounted - in the centre now serve Real Ale and secondly, the choice of beers is at an all-time high.

Since July 1993 there has been a gain of six pubs, and a loss of one pub, with cask-conditioned ale. The result is a record 69 Real Ale houses. As regards beer choice that too is a record, with 59 regular brews available plus another 20, sometimes 30, guest beers. And the picture could get better still now that Carlsberg-Tetley have introduced Tapster's Choice as their answer to Marston's Head Brewer's Choice. All we need now is for Bass to dig back into their recipe book - after all cask Worthington 'E' was once Britain's biggest-selling beer. And that discounts such gems as Worthington 'P2' and other much vaunted Bass brews.

This Guide surveys all 80 pubs - within the normal meaning of that word - in the city centre. Of these the MASON'S ARMS, OLDE AVESBURY, VINE and ROYAL STANDARD were closed when surveyed in July.

The survey was done by four groups namely: The TDC team led by Dave Richardson; Les Baynton & friend; Ivor Clissold & friend; and John McKell & friend. The cover illustration is taken from a '77 drawing by Reg Newcombe of the VICTORIA INN, Midland Place. Map, layout, text and design by John Arguile. Published by Derby CAMRA as a guide for locals and visitors to the city.
